How to Place Orders & Send Artwork

Please use the dash plate order form provided.

Standard Dash Plates

Review the examples found on pages 5-9. Once you find the example that you prefer, write the example number on the order form. You may then change the vehicles from the example to any shown in the catalog, and even specify the colors you want. You can also enhance your design by using the accessories on page 22. Next, write out the wording for your dash plate. Be sure to fill in your quantity and size as well as the color of the metallic foil edge. Remember that our experienced artists will layout what looks best for you and often give you more than one option to choose from. If there is something you are not sure of, just indicate that you want the artist to make the choice for you.

You may also start out by choosing a background and selecting the vehicles you like. Be sure to include your text, size, quantity and color information. With any dash plate order, we will send you a full color proof for review.

Custom Dash Plates

You can e-mail us your completed dash plate design and we will set it up and proof it to you. You may also e-mail us just photos or logos and we can add them to an example or background. E-mail to artwork@timeframe.com.
